Two months later, not having been told of your passing, I put everything together to come down and give you a happy 92 yr. birthday. I went against my doctor's wishes and braved the Covid resurgence just to be with you on your 92nd birthday; only to arrive and find you have been gone for two months. You know I don't believe secrets are good. No such thing as a good secret, Mom. So, your death was your last secret. I hope your next life will be free of all the darkness and full of light.

“ Dixie, we sure wish we could have visited this summer but we just completed building our new home and moving mom in with us this past week. I spoke to Aunt Billie the end of June, then knew something must be wrong when we couldn't reach her after that. We will miss her dearly. I know she is with Uncle Buck enjoying their new bodies and dancing with the angels. Please thank Connie for taking care of her. We begged Aunt Billie to come here but she just couldn't leave her home and all she knew; we understood how important it was to her. She would always say "Connie takes good care of me, I've got good neighbors." Please let Connie know how much we appreciate all she did for Aunt Billie.

Love always,

Neil and Jackie Laws and Rachel Clark

I just learned you passed. You and Buck were so kind to us when you were our bus drivers. Thanks to the family and friends who cared for her. She and Buck were true gems.
