“ I am so sorry for the loss of Susan. I knew her since 1974. Susan was such an integral part of my teen years I cannot fathom my life without her joyful spirit in it.  
I was able to see Susan in mid-2019, just prior to her birthday, for the first time in years. We were able to communicate how important each was to the other; intentions to visit again in 2020 were sadly thwarted by COVID restrictions.  
I will miss her, and always love and cherish our memories.  
May her memory always be of a blessing to us all.  
With love and sympathy,  
Lyndall Nipps
