“ I remember lots of good family times, family BBQ's , a fun fishing trip, lake shasta, renting a house boat with Bill and family,we had so much fun, I caught the 1st fish Bill was so excited he almost knocked me off the boat, acourse he wanted to help me reel it in! Lol and "Super Christmases"

As a family , we've had adtimes and lots of fun together, always had a really good time shen we were together. As a family we were very close then. I was and am blessed to be a part of this wonderful family.

I loved him so much, was so saddened as times changed, we were just talking, (his son Kent and i) about how he had a pair of shoes... so old that at first he used super glue to glue them together and then after it wouldn't hold together anymore he found some duck tape, "yes the all mighty duck tape" to hold his shoes together lol. Believe me he could afford a new pair of shoes...., I think it was always the challenge of how long he could make them last. He loved his job, being outdoors gardening

He differently had the best of the best garden!!!.

You'll truly be missed, Mr Thompson , you are blessed to be among your loved ones that were . wating rapound your arrival ou to arrive with open arms. Enjoy the journey, you have differently earned it. With all my love and respect ,your daughter in law , I'm usure your back to your old self and on a journey tthat is ever endinghat will be magnificent!
